

RTI Srl is an important Italian company engaged in the design, development and distribution of components and systems for industrial plants. Our commercial offer includes both products with our own brand and products of world leading companies, that we are distributing and selling throughout the country thanks to a sales network made up of resellers and direct salesmen.

SALES PROGRAM

Import and exclusive distribution in Italy of: Shock Absorbers, Gas Springs, Hydraulic Dampers, TUBUS Elastomeric Bumpers and SLAB damping plates, Rotary Dampers, antivibration systems.

Air Treatment, solenoid valves, Vacuum components, actuators, instrumentation and control.

Brushless Motors, Vector, Asynchronous, C.C., Drives, Inverters.

WITTENSTEIN

Reduced epicycoid gearboxes, orthogonal servo gear units, Linear actuators, brushless cyber® servomotors

Inductive sensors, photocells, Optic Fibers, Relé, Mechanical limit switch, Timers.

Temperature Controllers, Sensors, Load Cells, Thermocouples, Process Indicators, Drives, Inverter.

Exclusive importer for Italy: vacuum technology, cartridges and multi-stage pumps, vacuum transport systems

Electric Actuators with Ball and Acme screw -size from 32 to 160mm bore Stepper and Brushless motors.

Pneumatic Ball, Turbine and roller Vibrators
Special INOX Vibrators for the food, medical and pharmaceutical sectors.

Reed and Electronic Magnetic Sensors,
Special Electronic versions for Hydraulic Cylinders.

Linear LVDT transducers, force and ultrasonic sensors.

Centric Butterfly Valves, Double Eccentric, Triple Eccentric;
Stainless Steel Pressure Regulators.

Solutions for Automation and customized local services.
